Preface

TOEIC has long been widely recognized as one of the most effective tests in measuring English-language proficiency in social life and in the workplace. For this reason, a TOEIC good score has become a requirement that many candidates have to meet, including those who want to work for big corporations and those who expect promotions, just to mention a few. For many people, TOEIC simply means a tool to help them acquire more opportunities ahead.

It is common sense that a solid competence in English is essential to achieve a high score on the TOEIC. But this is not enough if you do not get yourself familiar with the test specific format and testing points, which require careful preparation and intensive practice. Not only general language skill development is necessary, but you should also pay attention to specific tactics and strategies to tackle various question types and practical skills such as time management as well. One of the most proven effective method to build up and develop all these skills, tactics and strategies is to work on actual tests on a daily basis.

QuickPrep NEW TOEIC 600 consists of 3 actual tests with 600 questions, aiming to provide you with reliable practice material following the most recent changes in TOEIC format. These practice tests are designed based on a thorough analysis of authentic new TOEIC test items and with a clear purpose of familiarizing you with what to expect when taking the test, in terms of both the level of difficulty and the challenge of maintaining focus under the exam pressure.

It is our strong belief that this preparation book will assist you in developing the most effective strategies for you to conquer the TOEIC test and achieve your target score.

LISTENING TEST

In the Listening test, you will be asked to demonstrate how well you understand spoken English. The entire Listening test will last approximately 45 minutes. There are four parts, and directions are given for each part. You must mark your answers on the separate answer sheet. Do not write your answers in your test book.

PART 1

Directions: For each question in this part, you will hear four statements about a picture in your test book. When you hear the statements, you must select the one statement that best describes what you see in the picture. Then find the number of the question on your answer sheet and mark your answer. The statements will not be printed in your test book and will be spoken only one time.

Statement (B), "One person is pointing at a document", is the best description of the picture, so you should select answer (B) and mark it on your answer sheet.
